## *WHY ROYALTY*

CORNELL WADE

The Royalty Institute of Leadership and Innovation will change the world. Out of respect for your time, I would like to be as direct as possible in the ultimate aim and purpose of the Royalty Institute of Leadership and Innovation. We will teach our young men the latest and most in demand skillsets. We will develop the entire child, through a Christ - led vision of what a young man should be. We will expose these young men to the world, and their responsibility as a global citizen, partner with community leaders to provide the best we possibly can and a bunch of other things to create the elite young man of color ( and hopefully young women one day too). But Ultimately, I believe it is important to remember why we decided to embark on this journey

We are going to change the world.

Beginning with my father, and continuing through life, I have had the pleasure of meet men from all walks of life, who look like me and reached what I consider success. In truth, I owe many of them a great deal. That said, I believe that we are at a critical point in time, a time where factors we all can feel, even if we cannot put into words, are causing us to lose young men of color at far too frequent a rate... before they are able to become the "Kingdom Men" outlined by author Tony Evans, and gifted to me by Pastor Author Clark, the head of Agape Family Faith Center, our partner on this journey to lay claim to the hearts and minds of communities across the country, through a commitment to education and innovation. This is why we created Royalty and I truly thank you for your support on our journey.

Love Royal
