Live Royal, Love Royal, Live Your Name!

Good Evening Everyone,

Today I had a phenomenal chat with one of the representatives with Carrols Restaurant Group, the owners of Burger King and Popeyes. They are extremely excited to hire young men from our institute. Please see the locations below for the branch closest to you and apply immediately as a part of the Royalty work study program. Contact me once you have completed the application so that I can alert management.

Please contact Cornell Wade directly if there are any questions. At a time where 40 million people are without employment, it is a blessing that this organization has provided these opportunities for our students and families. I am greatly appreciative of them for this opportunity and I know that our Kings will represent us proudly on the job
